**Toggles between 'Verified' and 'Normal' states each time the correct code is entered.**

TYPE FEATURES

Control: Relay Input	Access: Relay Output	Message Time	Verify Time	Verification	Show Length	Lockout
N/A	N/A	Required	N/A	Required	Required	Optional

EXPERIENCE

Normal

Verified

Notes

· Agent remains in the same state until the correct code is entered
· The dealer should either utilize the Code Verified and Code No Longer Verified events or should program based off the Code Verified conditional
