

Compatible Control4 Systems: 2.9.1 +

Compatible Hardware: Honeywell Wi-Fi Total Connect Comfort Thermostats

Developed by: Cinegration LLC. www.cinegration.com/drivers

Works with European and North American Total Connect Comfort Accounts

Setup

- Setup your Honeywell thermostat with the Honeywell Total Connect Comfort iOS or Android app and verify functionality prior to integrating.
- Add Honeywell TCC (Total Connect Comfort) Gateway and Honeywell TCC (Total Connect Comfort) thermostats to project.
- Enter your Honeywell Total Connect Comfort www.mytotalconnectcomfort.com, Email address and password in the properties field within composer.
- Once the gateway driver has successfully found your Honeywell thermostats you must navigate to the composer connections tab for your Honeywell gateway.
- Make bindings between the Honeywell Gateway driver and the individual Honeywell thermostat drivers.
- After you have made all of your bindings, perform a refresh navigators.

DriverCentral

- Create your project in the DriverCentral.io project portal. This will generate your project token.
- Download and load the DriverCentral.io cloud driver into your project, you only need one per a project.
- Use your project token that you have from step one and input it into the “Project Token” properties field within the cloud driver in your Control4 project.
- Once you have your project connected with DriverCentral.io your driver will be automatically licensed and auto update will be active.

Warranty:

Cinegration strives to provide fully working drivers without defects. However, changes and bugs may be found. Because of this, any bug/maintenance update to this driver will be free of charge. However, due to the ever-changing nature of computer and audio/video systems, if a new version of the Control4® software or API changes create issues or new features are added, a new or updated version will be provided for an additional expense or free as determined by Cinegration.
