Purpose of Driver: This driver will control a Polk Audio xrt12 XM Radio Tuner via RS232.

Driver Features:

* Standard XM Tuner functionality via Control4 interface
* 2-way feedback: Artist, Song Title, Station, Channel Number
* User can input stations via numeric keypad on SR250/SR150
* Can use Presets or Stations via Media tab in Composer
* Allows Screen Saver to have proper media streamed to interface

Normal Use for driver:

Used to stream XM Radio to areas in home.

Notes:

– This driver contains code written by Cinegration.   Any modification to this driver or any driver written by Cinegration without the express consent will void all warranties and constitute a ban on all drivers released by Cinegration.

– This driver has been designed to work with Control4 2.6.0 System with any Control4 HC200, HC300, HC500 or I/O Controller.

Warranty:

Cinegration strives to provide fully working drivers without defects.   However, changes and bugs are always found.   Because of this, any bug/maintenance update to this driver will be free of charge.   However, due to the ever changing nature of computer and audio/video systems, if a new version of the Control4 software creates issues with this driver, or feature enhancements, an upgrade version will be provided for an additional expense or free as determined by Cinegration LLC.

Thank you for choosing a driver By: Cinegration LLC.
