# 4drivers

Driver for integration: TV TCL [IR]

Mini Drivers for some streams available via IR
Support: contato@4drivers.com.br

Choose a standard input on the driver if you want the TV to enter open channels (TV ANT) or Smart TV Google TV (or the mini app you want):

Default Input:

Enable the quick start from the TV menu if and possible

There is no numercic IR codes. If you have a remote control with this codes and wnat to share, please, sed to us

Driver Properties:

Debug Mode
On | Off
Usado para rastreio de atividade, normalmente pelo desenvolvedor

Power On Delay-Milliseconds
Time in milliseconds that it takes the TV to turn on. Default 4000 (4 seconds). Some settings in the TV menu can make the power on faster or slower

Command Delay-Milliseconds
Interval in ms between commands

Press-Release Command Delay-Milliseconds
Interval in ms between repetitive commands when holding the button (volume, navigation arrows and channels). This interval may work better or worse depending on the IR emitter hardware. If the commands continue to come out after releasing the key, increase this value

Alternative Power ON-OFF
If the TV is not turning off, choose "Yes" in this optionI send the INFO (Home) command to turn on and off, driver send the INFO (which turns on

the TV) and after x seconds sends the power toggle.

Alternative Power ON-OFF (seconds to OFF)
Time at which the power toogle will be sent after the INFO does not shut down

Connections, MiniApp Drivers and Smart TV

This driver can use some mini drivers, sending the user to the correct application via IR codeTo do so, connect the Control4 (universal) mini drivers to the corresponding connections (outlined in **red** in the image below:

MiniApp 0 - GOOGLE - SMART TV	Video	RF_MINI_APP	Input	Google Smart TV->Google TV
MiniApp 1 - NETFLIX	Video	RF_MINI_APP	Input	Netflix->Netflix
MiniApp 2 - YOUTUBE	Video	RF_MINI_APP	Input	YouTube->YouTube
MiniApp 3 - PRIME VIDEO	Video	RF_MINI_APP	Input	Prime Video->Amazon Prime Vid
MiniApp 4 - GLOBO PLAY	Video	RF_MINI_APP	Input	Globoplay->Globoplay
MiniApp 5 - DISNEY	Video	RF_MINI_APP	Input	Disney Plus->Disney Plus
MiniApp 6 - TCL CHANNEL	Video	RF_MINI_APP	Input	TCL Channel->TCL Channel

The mini drivers with **a blue** outline are present in the .zip file (TCL Channel and Google TV)
Note that the main menu of the Smart TV is accessible by the Google TV Mini Driver or via the **INFO command**
