Integration Note

Manufacturer:	Russound
Model Number(s):	RUSSOUND CA4 / CAA66
g! Core Module Version:	g!7.2
Driver Developer:	T4Control
Document Revision Date:	09/15/2020

Overview & Supported Features

Russound's CA4/CAA66 Multizone Controller offers control of a four-zone, four-source multiroom audio system at an entry-level price. Engineered to partner with any home, the CA4/CAA66 provides a slim profile chassis and elegant wire management solution for an attractive installation in either an entertainment center or equipment rack.

THE FOLLOWING OPTIONS ARE SUPPORTED BY [THIS DRIVER]:

- 4 to 8 zones (when 2 CA4 connected) for CA4 model

- 6 to 12 zones (when 2 CAA66 connected) for CAA66 model

- 4 or 6 audio sources

- Feedback (2-way RS-232 Communication)

- 24h TRIAL

Any feature not specifically noted as supported should be assumed to be unsupported.

Base Configuration

1. Perform CA4/CAA66 Installation as demands the product's manual.
2. Perform all the bass/treble setup as demands the product's manual.
3. Connect the RS-232 cable to ELAN Controller.

Installation Process / configurator

1. Add a Communication Device – Serial Port.
2. Add new Zone Controller, look for **Russound CA4 or Russound CAA66**
3. Type your license key.
4. Select the Communication Device as Serial Port.
5. Link the sources.
6. (optional) If you have 2 devices linked together, set "Extra CA4 on Expander" to Yes, this will add extra 4 zones in the driver.
7. (optional) If you have 2 devices linked together, set "Extra CAA66 on Expander" to Yes, this will add extra 6 zones in the driver.
8. Click on Apply.
